CAREER STATEMENT

As an experienced software developer with three years of industry experience, I possess a set of skills and abilities that enable me to develop innovative and efficient solutions for complex challenges. My focus is on creating clean, scalable, and maintainable code and products, and I excel at collaborating with others to solve problems and continuously improve outcomes. With strong problem-solving skills and a commitment to professional development, I am a valuable asset to any team.

EPERIENCE

March 2023 to Date. **Software Engineer**

Kenyaweb Solutions

My role is developing high quality and scalable software to solve clients problem.
I am also tasked with maintaining and updating existing software to meet the current trend.

December 2022 to Feb 2022 **Graphic Designer**
